

Meridian Public Safety Training Facility

A 99-Acre Facility located in the heart of East Central Mississippi less than 20 miles from the Mississippi Alabama state line.

This Facility was built to train first responders closer to home. We want to provide all responders with the best training currently available. Our goal is to train more responders with the same capabilities that they can get away from home.

We believe that every responder will be able to find classes that will interest them and help them grow in their chosen careers.
